

## **Dear Beloved Colleagues, Friends and Family;**

I have the great joy to offer you a remarkable paradigm changing work. I have had the privilege to learn with Marko Pogačnik, a UNESCO Artist for Peace, a sculptor, author and visionary. His most recent book, "Creating Gaia Culture" offers many insights, images, inspirations and frameworks for expanding our understanding of how to meet the challenges we face in these times. We can include Gaia, the Earth as a partner in all we do in our human endeavors. But how can we do that? If you are ready to open your mind and heart in new ways then you will love hearing the audiobook version of "Creating Gaia Culture", which you can find at:

The printed book is available through Steiner Books in the US and Clairview books in the UK.

The audiobook is offered for free and if you feel you can offer something as a donation it would be gratefully accepted to help cover the cost incurred to produce the audiobook.

A wonderful team of voice artist Monica Ward and filmmaker/technical wizard Oliver Ward are to be thanked for their devotion in bringing this to fruition.

The book contains chapters bringing thoughts and concepts forward. It also contains meditations and imaginative exercises to enliven your exploration in order to find your individual relationship to this emerging new culture.

I invite you into this important work and hope you will feel free to send it along to anyone you think might wish to encounter this new way of perceiving and thinking.

A path to go forward WITH Gaia!!!
